## 2.3 Additional fees for account maintenance the bank may charge the client

Additional fee for account maintenance from the increment in the client's deposits, provided the total volume of funds deposited for all currencies as of 31 December is less than CZK 100 million	free of charge
Additional fee for account maintenance from the increment in the client's deposits, provided the total volume of funds deposited for all currencies as of 31 December is greater than CZK 100 million	0.15% <sup>1)</sup>

<sup>1)</sup>The total volume of a client's deposits consists of funds held in all of the client's accounts, including term deposits and deposit notes in all currencies. The term "account" also applies to an individual account opened for safekeeping third-party funds with a notary, lawyer, bailiff or auctioneer, or an individual account for administering an insolvency estate held for a liquidator (hereinafter referred to as the "Client"), irrespective of who the beneficial owner is (hereinafter referred to as the "Beneficial Owner"). In escrow accounts and accounts for administering an insolvency estate, the balances of all accounts of the same Beneficial Owner are aggregated for the purposes of assessing whether the limit of CZK 100 million has been reached. The fee is calculated according to the difference between the total volume of deposits of the Client/Beneficial Owner as of 31 December of the respective year and the average daily balance of deposits of the Client/Beneficial Owner from 1 September until 30 November of the same year. If this difference is negative, the fee is zero. The fee is charged annually and may be debited from any current account held with the bank in January of the following year. When foreign currencies are converted into CZK and vice versa, the CNB's foreign exchange middle rate valid as of 31 December of the respective year applies.

<b>Foreign payment operations – Definition of terms</b>		
<b>SEPA payment</b>	A SEPA payment is any payment in EUR currency meeting the following conditions: – it contains the correctly entered IBAN (International Bank Account Number = international account number) of the beneficiary – “SHA” fee management (shared = the originating bank's fees are paid by the sender and the beneficiary bank's fees are paid by the beneficiary) – it contains no requirements for special processing methods – it is executed only between banks participating in the SEPA scheme and in EEA Member States and other countries that have voluntarily acceded to SEPA rules (e.g. Switzerland, Monaco and San Marino) The Bank provides the SEPA Direct Debit service only for EUR accounts.	
<b>SHA fees</b>	The payer pays the fees required by the payer's bank, and the beneficiary pays the other fees. For outgoing payments, additional fees of intermediary banks may be debited from the payer for sums lower than the allowed minimum set on an individual basis by intermediary banks and for manual processing due to instructions incorrectly entered by the payer.	
<b>BEN fees</b>	The beneficiary pays all fees (fees required by the payer's bank and those required by the beneficiary's bank). For outgoing payments, additional fees of intermediary banks may be debited from the payer for sums lower than the allowed minimum set on an individual basis by intermediary banks and for manual processing due to instructions incorrectly entered by the payer. Please note that for non-conversion payments and within the EEA and in an EEA-country currency, the BEN fee management under the applicable legislation is not permitted and will be changed by the bank to the SHA fee management.	
<b>OUR fees</b>	The payer pays all fees (fees required by the payer's bank and those required by the beneficiary's bank). For outgoing payments, additional fees of intermediary banks may be debited from the payer for manual processing due to instructions incorrectly entered by the payer.	
<b>NON-STP</b>	The surcharge is applied to each foreign payment, cheques excepted, in the following cases: – Payments when the beneficiary's IBAN is required (such as payments in the EU and EEA); or the beneficiary's name or another mandatory information requested by the beneficiary's bank or, respectively, by the correspondent bank while this required detail is either missing or has been stated incorrectly; – Payments at which the beneficiary's bank BIC (i.e. SWIFT address) is required (such as payments in the EU and EEA), while the beneficiary's bank BIC is either missing or has been stated incorrectly (including SEPA payments); – Payments in the EEA and denominated in an EEA currency subject to the “BEN” management of fees (the Bank will change the fee management to “SHA”); – Request for a special processing method has been made: we understand such special requests as including the use of either (i) another code word than that defined by the Bank, or (ii) a code word based on which the order is processed as a NON-STP payment, or (iii) a code word entered through the direct or electronic banking in a format differing from the prescribed one. The following are the defined code words that do not trigger the NON-STP surcharge application: /RATE/, /VALUE/, /AVIZO/, /CHQB/, /ABA/, /KS/, /VSI/, /SS/ (only for CZK denominated transfers in the Czech Republic). – These are payments to/from high-risk third countries. The current list of countries is available on the portal of the Financial Analysis Office (FAU) fau.gov.cz – List of high-risk third countries.

<sup>1)</sup>An initial value for a fee calculation is in principle calculated according to the estimated value of the investment instruments held at the calendar quarter-end date (or, at the contract termination date), irrespective of the investment acquisition date (i.e. 0.05% quarterly rate or CZK 75 as a minimum). The fee is always debited on the 15th day of the month following the quarter's end, or, proportionately upon contract termination. UniCredit Bank has made maximum effort to estimate the value, having based itself on the prices provided by third party depositories or by other relevant data providers operating on the market. Prices provided by third parties are referred to as either market prices or their estimated values. Nominal values of the held investment instruments, or, the technical figure 0.000001 may be alternatively used in place of the price as a rule where the market value or estimated value of the held investment instrument is unavailable. If the CSDP (i.e. Central Securities Depository) has included the held investment instruments in the list of issues for which no securities maintenance fee is charged, the technical figure 0.000001 must be used without exception.

While UniCredit Bank considers the sources trusted and provides information obtained from them in good faith, it is nevertheless unable to guarantee and therefore assumes no liability whatsoever for this information's up-to-date status, completeness and correctness, and hence, no liability for that information. The presented values and prices do not constitute an offer to sell or the solicitation of an offer to buy any of the above investment instruments.

<sup>2)</sup>The surcharge for clients who do not have an account maintained at UniCredit Bank is CZK 200.

CSDP: Central Securities Depository Prague

Note: In addition to UniCredit Bank's fees for providing custody/administration services listed above, the client reimburses costs paid by UniCredit Bank to third parties, especially the fees of CSDP.
